

ELECTRONIC MANUFACTURING

Since 2015 CZ Electronics has developed a range of affordable, high-quality consumer electronics products for resale through leading retailers located across the continent.

Our range of consumer electronics boast highly competitive economies of scale, the lowest defect rate globally and superior warrantee and after sales support.

TELEVISIONS

New Television sales in South African exceed 700 000 per annum. CZ started manufacturing Television sets in November 2016. To date we have produced more than 100,000 Televisions which have been sold through leading retailers throughout South Africa and Sub-Saharan Africa.

CZ Electronics currently offers a range of DLED Televisions in various configurations. From 32" to 40", 45" and 55" in size, CZ manufacturers Smart and non-Smart TV's for various leading retailers.

All products feature the latest technology and quality components and the final specification can be tailored to meet your requirements.

DIGITAL SET TOP BOXES

CZ Electronics has a SA government approved DTT (Digital Terrestrial Television) Set Top Box (STB). To date, we have supplied 500 000 DTT STB's to the South African Government and we are well positioned to supply other governments throughout Africa.

CZ Electronics has also developed a DTT Decoder by way of ETV's OVHD program, we have manufactured approximately 500,000 of these decoders to date with a market share of circa 50% (in South Africa). The Decoders are distributed through leading retailers such as PEP stores, Pick n Pay, Ellies, House and Home and OK bazaars.

PVR SOLUTIONS

CZ Electronics have also developed a high-quality PVR solutions for ETV which will be launched in Q4 2018. The PVR products will provide end-consumers the flexibility of tailored viewing programs that have so far only been available on premium digital solutions.

ANDROID SET TOP BOXES

CZ Electronics is currently developing an Android decoder with ShowMax which will be sold in 55 countries. Furthermore, CZ Electronics is currently in discussion with MTN and Cell C to market Android Set Top Boxes.

WITH MORE TO COME

CZ currently has several other consumer centric electronic solutions undergoing research and development for various markets throughout Africa. These include: Tablets, Wearable Devices and Gaming Consoles

If your business strategy involves consumer electronic products, CZ Electronics should be your preferred partner. With a proven track record of producing high-quality, reliable and cost-effective products to suit any size order, CZ delivers time and time again.
